The May 1, 2007, amendments removed requirements for all state agencies to create, exchange, maintain, and preserve electronic documents in an open file format as approved by the State Chief Information Officer (CIO). The amendments would require the CIO and other designated representatives to conduct a demonstration project to examine the use of an open file format by state agencies for creating, exchanging, maintaining and preserving electronically produced text documents, spreadsheets and presentations, and report their findings to the Legislature by October 2, 2008. The provisions of this bill no longer impact the department's programs, operations, or costs.
